

## Listing of Claims

1. - 21. (cancelled)

22. (new) A play activity set comprising  
target means,  
at least one object for throwing at the target means,  
the target means and the at least one object made from box material from  
at least one box,  
the at least one object is flat and comprises a flying disc, the flying disc  
comprising  
a disc body having an outer perimeter,  
a plurality of portions of the disc body folded from the disc body  
around the outer perimeter,  
a plurality of cuts spaced-apart around the outer perimeter of the  
disc body, and  
at least one portion of the disc body between at least one pair of  
the plurality of cuts, said at least one portion folded at an angle to the disc  
body.

23. (new) The play activity set of claim 22 wherein the at least one box is a  
single box and the target means and the at least one object are from said single box.

24. (new) The play activity set of claim 23 wherein  
the single box is suitable for containing a pizza.

25. (new) The play activity set of claim 22 wherein  
the target means including at least one target opening in said at least one  
box.

26. The play activity set of claim 23 wherein the target means includes at  
least one target opening, and  
the at least one target opening is in said single box.

27. (new) The play activity set of claim 22 wherein  
the at least one object is a plurality of objects.

28. (new) The play activity set of claim 22 wherein the at least one box has  
at least one stabilizing portion formed of the at least one box and projecting therefrom.

1           29. (new) The play activity set of claim 28 wherein  
2           the at least one box has an opening therethrough for receiving a  
3           stabilizing portion of the at least one box, and  
4           the at least one stabilizing portion of the at least one box projects through  
5           the opening.

1           30. (new) The play activity set of claim 25 further comprising  
2           the at least one box having two box parts, one part foldable over on the  
3           other part, the at least one target opening in one of the box parts,  
4           at least one stabilizer portion partially separated from one of the box parts  
5           opposite a box part with the at least one target opening,  
6           the at least one box having a stabilizer opening corresponding to each of  
7           the at least one stabilizer portion,  
8           a part of the at least one stabilizer portion extending through the stabilizer  
9           opening.

1           31. (new) The play activity set of claim 22 wherein  
2           at least one target part is removed from the at least one box and  
3           said removal forming a target opening through the at least one box, and  
4           the at least one object comprises at least a portion of the target part.

1           32. (new) The play activity set of claim 22 wherein  
2           the at least one object has indicia thereon.

1           33. (new) The play activity set of claim 22 wherein  
2           the indicia is scoring indicia.

1           34. (new) The play activity set of claim 22 wherein  
2           the at least one object has two opposed surfaces each with indicia  
3           thereon.

1           35. (new) The play activity set of claim 34 wherein  
2           the two opposed surfaces include two surfaces at least one of whose  
3           indicia is scoring indicia.

1           36. (new) The play activity set of claim 22 wherein  
2           the at least one object is a plurality of objects, and  
3           each object has indicia thereon.

1 37. (new) The play activity set of claim 36 wherein  
2 the indicia includes scoring indicia.

1 38. (new) The play activity set of claim 22 wherein  
2 the target means comprises at least one item separated from a box, said  
3 at least one item able to be knocked down by a thrown object.

1 39. (new) The play activity set of claim 22 wherein the flying disc further  
2 comprises

3 a plurality of cuts spaced-apart around the outer perimeter of the  
4 disc body,

5 at least one portion of the disc body between at least one pair of  
6 the plurality of cuts, said at least one portion folded at an angle to the disc  
7 body.

1 40. (new) The play activity set of claim 22 further comprising  
2 a plurality of secondary objects removed from the at least one object.

1 41. (new) The play activity set of claim 40 further comprising  
2 the plurality of secondary objects comprising a plurality of throwing discs.

1 42. (new) A play activity set comprising  
2 target means at which at least one object may be directed,  
3 at least one object for throwing at the target means,  
4 the target means and the at least one object made from box material from  
5 at least one box,

6 the at least one object is flat and comprises a flying disc, the flying disc  
7 comprising

8 a disc body having an outer perimeter and a plurality of cuts  
9 spaced-apart around the outer perimeter,

10 at least one portion of the disc body between at least one pair of  
11 the cuts, the at least one portion folded at an angle to the disc body,

12 a plurality of cuts spaced-apart around the outer perimeter of the  
13 disc body, and

14 at least one portion of the disc body between at least one pair of  
15 the plurality of cuts, said at least one portion folded at an angle to the disc

16 body.
